

Dolkur S

TO COUNTERACT LOCALIZED TENSIONS

is a food supplement with high concentration of Salicin from White willow, with Boswellia, Devil's claw, Magnesium and Vitamin E. White willow supplies 96 mg a day of Salicin, the maximum allowed dose for food supplements. White willow and Boswellia counteract localized tensions and, together with Devil's claw, they promote articular function. Magnesium contributes to the normal function of nervous system and to the physiological muscular function.

Functional ingredients:

White willow, Devil's claw, Boswellia, Magnesium, Vitamin E.

How to use:

2 tablets a day, on a full stomach.

Pack:

30 tablets
