

Articolene gel

TOPIC TREATMENT TO MAINTAIN HEALTHY JOINTS

is a gel that combines the beneficial properties of selected active principles contained in the vegetable extracts of Devil's claw and Spirea ulmaria, and the highly synergistic ones of Glucosamine. Its particular formulation that enables a double (cold/warm) effect, makes it an excellent local coadjuvant. The product has a sebum-like pH.

Functional ingredients:

Devil's Claw, Meadow Sweet, Laminaria Digitata, Glucosamine, Vitamin B3.

How to use:

Rub the gel on the area to be treated, when needed.

Pack:

100 ml
